

# ***Singing IS Therapy***

3

*The more songs you store, the more time-consuming and tedious it is to get access to a particular song. A smart **SONG SEARCH MENU (SSM)** is therefore developed to do the following jobs:-*

1) *Before you store in a song, create a file name for the song with a Song No. of 5 digits in the following rule :-*

- a) *For CDG/MP3+G – #000001-song title-singer. MP3*
- b) *For MTV – #000002-song title-singer. ava*

*NOTE: Each song no. should not be duplicated !*

*Songs you newly store, together with those already stored in your storage device, will be automatically rearranged in Alphabetical order, both by Song Title and by Singer in this SSM.*

- 2) *After adding in or deleting songs, the machine provides a “**Song List Create**” function for you to print out your new **SONG BOOK**.*
- 3) *The **SONG SEARCH MENU (SSM)** is smart enough for you or KJ's at a party to retrieve a particular song:-*
  - a) *By the Song No. (From your song book)*
  - b) *By the Song Title (Just type the initial letter of each word)*
  - c) *By the Singer's Name (Just type the initial letter of each word)*

*To facilitate you to key in numbers and alphabets with ease, the machine is developed alongside with a special **Keyboard-Type Remote**. You can operate each function efficiently, just by one-touch on this Remote.*

*Hosting a party, the machine provides a **Program Playback Table** for you to reserve or program the songs to be played out in an order as requested by the party guests. This Program function can allow your guest's programmed song to Jump the queue.*

*Another party feature is after singing a song you have a **Score**.*

*For good singers who wish to record their own songs and also, for practising purpose, this machine provides a '**Recording/Playback**' function for them to record either from professional sound tracks, MP3+G or from VCD background music, after vocal removal. Note: Recording MP3+G to MP3+G format; Recording VCD to MP3 format*

*This new machine maintains the **Standard Karaoke Functions** e.g. 2 Mic inputs, Echo Adjustment, Key Control, Multiplex etc.*

*Whether you are a karaoke beginner, a professional singer, a Karaoke lover or a Karaoke Jockey (KJ), this machine will take care of your needs. Please make full use of it and you will enjoy singing more and more, better and better each day!*
